NEVER DESPAIR OF LIFE!
KELLEY & CO'S
HIGHLY CONCENTRATED
SARSAPARILLA
Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives
Annually!!
10,000 CASES
OF SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS, of which proof can be furnished. This is the only medicine known to cure these diseases.
THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottles FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it as it is objected to all other Sarsaparillas but they are Weak Clumsy, Adulterated, Sickly and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be
Six Times Stronger
than any other, and Six Times Better, Safer, Surer, and Cheaper than all others. THIS Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the sickness KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures
Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!
CONSUMPTION CURED WITH
KELLEY & CO'S SARSAPARILLA!
A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES astonishing as it may seem, that he actually CURED a case of Consumption, with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for Diseases of the Lungs.** Some with marvel at this REMARKABLE Cure but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And says
SIR BENJAMIN BRODIE,
Surgeon to the Royal Family of England that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury? What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails. The
Severest Scrofula and Humors,
where the flesh falls off the bones—the bones are diseased, and the DART OF DEATH seemed ready to strike the sufferer. And the reason for this is that it makes the BLOOD perfectly Pure Red Healthy, Quick, Free Nutritious. RECURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful Strength wasting, Appetite gone Pulse weak, or Feverish Skin yellow Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires. And on its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the
Master Remedy of the Age!
The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not interfere with the patient, or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh and strength and perfectly pure Blood so that the cure is all cases thorough and permanent. Others only scatter abroad the disease but this EXTIRPATES it wholly from the system—this saves the patient while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE the System so vigorous—Blood so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH!
Ladies, Married and Unmarried
It is for you especially that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability to cure every Disease Affection or Pain, which comes under this head. Irregulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.
THE articles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined, designed to render them more active and consequently more effectually effective.
The Dock, or rather a species of it now ranks as a medicinal plant second to none of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preparing the extract of the root for any considerable length of time.
For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.
A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract must be reduced to and kept liable to decomposition is prepared by subjecting the root to the action of the menstrums usually employed in extracting its virtues, for a long time without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.
The Compound is recommended for Scrofulas Erysipelas, Ulcerous affections Eruptions and Mercurial diseases. Also or the numerous maladies arising from sedentary employments occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia, Piles Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.
In diseases of warm climates with which the proprietor became familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.
This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his profession life. It is extensively prescribed by him while in practice and it is believed to be in favor with his medical brethren in general, to whom it is known.
Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Joshua Burgin & Co No 113 Middle street and Edward Mason No 153 Middle street—only agents for Portland.

The Great Remedy for Gonorrhœa
GLEET Stricture, and Analogous complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.
Dr D most solemnly affirms that during his practice of forty years, this Paste has never in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged shortly cured.
If the unfortunate instead of dabbling themselves with quack nostrums, would procure one box of the Arab an Paste, we should not see so many emaciated bodies and sad countenances as we do at the present time.
☞ In case the Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given to the purchasers on returning the empty boxes.
For sale by the original inventor and sole proprietor, Dr PETER G DOUGLASS at his Office No 63 Union street Boston, at $2 per box where he can be confidently consulted in every disease incident to the human frame and the patient relied on the most beneficial course of treatment that can possibly be adopted.

COMPOUND SYRUP OF
Sarsaparilla and Pipsissewa.
Prepared only by
ALBERT TILESTON,
PRACTICAL APOTHECARY,
Apothecaries' Hall, 1 Smith's Block,
BANGOR
THIS article is recommended as a cure for all diseases resulting from an impure state of the blood such as Scrofula & Salt Rheum, Syphilitic and Mercurial affections, Ulcers & Sores, Pimples and Eruptions on the Skin, &c. This Syrup is highly approved by the Medical Faculty and is recommended as a safe and mild antidote for the purpose of an alterative or as some would express it purifier of the blood, being easily taken and acting on the system in all long standing cases where the fluids of the body require purifying.
Pipsissewa (the Chimaphila of Pharmacy) or Wintergreen is very extensively used by Indians in Scrofula and other chronic diseases—it is generally supposed to possess a most specific power, and Dr Tilestone is the only practitioner who has ever succeeded in combining it with Sarsaparilla so as to make a palatable and efficacious compound.
When taken into the stomach it acts as a tonic producing an agreeable sensation and seems to give the appetite a delightful relish. It is not the secreting organs alone that it acts upon but it has never which indeed it is not in its exercise a specific influence. In order to insure essentially the benefit derived from Sarsaparilla we have most advantageously combined the Pipsissewa with it so that its tonic and diuretic properties will materially promote the good effects of Sarsaparilla.

NOMINATING CAUCUS!

The Whigs of the city of Bangor are and all are notified that there will be a public Caucus at the

CITY HALL,

On FRIDAY EVENING, Sept. 8th,

at half past seven o'clock for the purpose of nominating two candidates to represent this city in the Legislature of the State. Also to transact such other business as may be legally possible.

By order of the Whig City Committee.

Bangor Sept 6 1848

Whig Caucus, This Evening.

There is to be a Whig Caucus at the CITY HALL THIS EVENING, for the purpose of nominating two candidates to be elected on Monday next to represent this city in the Legislature of the State.

The plurality system applies to the election of Representatives and of course there will be but one ticket. It is important then, that there should be a full caucus in order that such candidates may be nominated as will not only secure a full vote for themselves but, if possible give some strength to the general ticket

Every Whig who can make it convenient should be present and give his voice in the election of candidates in order that all may give the ticket a generous support at the polls

But little time, altogether too little has been devoted by the Whigs to the State election, which takes place on Monday next. The election is of great importance and the remaining hours should be diligently improved in making such preparation as may be necessary to bring out a full Whig vote

Remember the Caucus this evening, and be present and see to it that from no apathy on your part is a single Whig vote lost on Monday

Let no Whig voter leave the city on Monday until he has cast his vote. Every vote is needed. Not one can be spared. A Whig vote on Monday is worth more than a day's work, as upon it may depend the election of the Whig candidate to Congress the future policy of the State and the prospect of the election of General Taylor. Do not fail to carry the Whig vote and nothing but the entire Whig vote

☞ Gov Alexander Anderson, who was elected in the United States Senate by the Legislature of Tennessee, in 1840, upon the resignation of Hugh L. White, has left the democratic ranks, and come out in favor of General Taylor for the Presidency

The Chicago Democrat, a Cass and Butler paper, says: 'It cannot be denied that there is a considerable defection from the democratic party in this city, and that General Cass will not receive so large a majority as we have formerly given at Presidential elections'

General Gushing has been nominated as the democratic candidate for Governor of Massachusetts

Hard times for Rogues—Constables Walker and Kimball on the alert.

Some one last week information was left with Constable Walker, by the name Simon pure? in the way of rogue catching, that a tavern house had been entered and robbed of $40 in money and various other articles But no clue was given as to the offender. He immediately engaged the services of Constable Kimball to operate with which is technically termed Police Chloroform,' and after a diligent search of three days, Moses Rickels and Samuel Little, two colored men, were arrested, examined, and ordered to recognize for appearance to take their trial at the District Court in the sum of $500, and were committed to jail

On Tuesday a vessel was robbed of $30 in money watch rings, and various other articles Constable Walker was informed of the fact and set himself to work to catch the rogue. With only a description of a young man who had worked on board the vessel for a day He started on the morning of Wednesday in the State of Maine—watching all persons who came on board—and when at Frankfort he discovered a person come on board who as he suspected and immediately arrested and examined and found to be the one of whom he was in pursuit He stopped at Bucksport, took the Governor and returned home, and before night the thieves, who gave his name as Charles Hayward, of Baltimore was in jail for want of bonds men to take his trial at the District Court

SPEECH OF Hon. Daniel Webster.

AT MARSHFIELD, MASS Sept 1 1848

Phonographic Report for the Traveller, by the Stars

Continued.

Now, what is my duty to Virginia?—what is the duty I owe to the Whigs? I mean the Whigs? Being in good faith I owe to no, this is the only thing which is between Gen Taylor and Gen Cass. And that is the whole of it (Great applause)

I am not in the habit of forecasting political occurrences than others I judge only by my sense—But, in my opinion, there is not the least probability of any other result for the choice of Gen Taylor or Gen Cass

I know that the enthusiasm of a new formed party,—that the popularity of a new formed name, without a name or any new formed idea (Enthusiasm) may lead some to think that the sky is to be filled with lightning suddenly to be taken. I anticipate no such explosion. I speak with a good deal of confidence. Free Soil Party I have read the platform, and though I think there are some good pieces in it, I can stand on it pretty well But I see nothing in it new or valuable. What is valuable is old, and what is new is not valuable

If the time for Free Soil party, or Free Soil men, consider it whom fixed and unalterably in favor of the restriction of slavery—is so to day and was so yesterday, and has been so some time, (Laughter)—shall I hold myself to be a Free Soil man? I have not been any of the Buffalo Convention [Much clapping] I pray to know what is to put to death my last a dozen years than that upon which I have stood every since I have been in public life? I pray to know what is to despoil me of my breast a more resolute and fixed determination, to resist the advances and encroachments of the slave power than has marked my conduct in the first time, opened my mouth in the councils of the country? [Loud applause and excitement]

The gentlemen of Buffalo have placed at the head of their party Mr Van Buren a gentleman for whom I have all the respect that I should entertain for one with whom I have been associated, in some degree, in public life for many years But really, speaking for myself, I should think it if I were to express a confidence in Mr Van Buren on his politics on any question and most especially this very question of slavery—I think the scene would border upon the ludicrous, if not upon the unpatriotic

I never proposed anything in public life of a general and public nature that Mr Van Buren did not oppose Nor has it happened to me to support any important measure that he did propose And if he and I now were to find ourselves together under the Free Soil flag, I am sure, that with his accustomed good nature, he would laugh (Laughter) I nobody were present, we should both laugh [Increased laughter from the audience] at the strange occurrences and strange vicissitudes of political life that should have brought him and me to sit down cosily and snugly, side by side, on this same platform

Gentlemen, my first argumentation in public life with Mr Van Buren was when he was pressing, with great power, the election of Mr Crawford to the Presidency against Mr Adams, Mr Crawford was not elected, and Mr Adams was.

Mr Van Buren was in the Senate nearly the whole of that Administration and during the remainder of it, he was Governor of the State of New York And it is notorious, that he was the soul and centre, throughout the whole of Mr Adam's term, of the opposition made to him — And he did more to prevent Mr Adam's election in 1828, and to obtain Gen Jackson's election, than any man—yes, than any *ten men*

Gen Jackson was chosen Mr Van Buren was appointed his Secretary of State It so happened that in July 1829, Mr McLane went to England to arrange the controverted, difficult and disputed point on the subject of trade Mr Adams had held a high tone on that subject—He had demanded, as a reciprocity and a right, the introduction of our products into all parts of the British territory freely, since Great Britain was allowed to bring her produce into the United States upon the same terms Mr Adams placed the whole on ground of reciprocity, and insisted Great Britain would not yield all Van Buren in his instructions to Mr McLane, told him to yield that question of right, and then went on to say, that the administration in which he was Secretary of State—that is Gen Gen Jackson's—ought not to be debarred in England by the English government from the enjoyment of that which he was willing to call not a right, but a privilege Gen Jackson's administration, he said, ought not to be [illegible] the predecessor of the misfortune [illegible] administration There is the sum and substance of it

Well, gentlemen it was one of the most painful duties of my life, on account of this to refuse my assent to Mr Van Buren's nomination It was new in our history, when an administration changes, that the new administration should seek to obtain privileges on the ground that they have abandoned the ground of their predecessors

I suppose that such a course is hidden to be altogether undignified by all public men When I went into the Department of State under Gen Harrison, I found in the conduct of my predecessor many things that I wished otherwise—Did I retract a jot or tittle of what Mr Forsyth had said? I took the case as he had left it, and I should have considered that I disgraced myself, if I had said, Pray, my Lord Ashburton, we are more rational persons than our predecessors, we are more considerate than they, and intend to adopt an entirely opposite policy—consider, my dear sir, how much more humble and submissive we, the successors are, than our predecessors'

But now, on this very subject of the extension of the slave power, I would by no means do the least injustice to Mr Van Buren If he has come up to some of the opinions expressed in the platform of the Buffalo Convention, I am very glad of it I do not mean to say that may not be very good reasons for those of his own party who cannot conscientiously vote for Gen Cass, to vote for him, because I think him much the less dangerous of the two

But in truth, looking at Mr Van Buren's conduct as President of the United States, I am ashamed to find that he should be placed at the head of a party professing to be, beyond all other parties, friends of liberty and enemies of African slavery in the Southern States Why, the very first thing that Mr Van Buren did after he was President, was to declare that of Congress, in any manner or degree—that of Congress interfered in the last degree with slavery he should veto that action, the only instance in which I do remember that a President agreed to veto acts before they were passed And no sooner the Presidential chair, said he, 'the inflexible and unconditional opponent of every attempt on the part of Congress to abolish slavery in the District of Columbia against the wishes of the slave holding States, and also with a determination to resist any exercise of power against the wishes of the slave holding States' This is, if Congress pass any law upon that subject, he will meet it with the exercise of his constitutional power

All the world knows, or know, for I remember, that Mr Van Buren's writing was giving form and force to every doubtful propriety—a law to allow Post masters to open the mails and see if there was any incendiary matter in them, and also to destroy it I do not say there was no constitutional power to pass such a law Perhaps the Southern statesmen thought it was necessary to protect themselves from insurrections So far as anything could inquire the law and properly of the South so far I agree that there may be such legislation in Congress as shall prevent such results

But, gentlemen, no man has exercised a more controlling influence on the conduct of his friends in this country than Mr Van Buren I take it, that the most important, or one of the most important events in our time, tending to the extension of slavery and its everlasting establishment of the continent, was the annexation of Texas, in 1844 Where was Mr Van Buren then? let me ask—three or four years ago—where was he? He had been at the head of what is called the Democratic party He had not then then at the head of the Soil, or Free Soil Party

Every friend of Mr Van Buren so far as I know, supported the measure The two Senators from New York supported, and the members of the House of Representatives from New York supported it Allow me to say that no body resisted but Whigs

And I say in the face of the world, I say in the face of those connected with or likely to be influenced by the Buffalo Convention, I say to all of them, that there has been no party in this country, which has firmly and steadily resisted the progress of the Slave power but the Whigs

Why, look to this very question of the annexation of Texas We talk of the direction of the slave power At least thirty do—I do not like to follow that any body chooses to me They talk of the triumph of the South over the North! There is not a word of truth or reason in the whole of it I am bound to say, on my conscience that I attach the responsibility upon any those acquaintances of slave holding Northern states, in full proportion have been given in both Houses, have been given for the extension of territory—and for the extension of slavery to territory, and it is, too, in both Houses of Congress

We talk of the North There has been no North I think the North Star is at last discovered, I think there will be a North, but up to the recent session of Congress there has been no North

In regard to firm principles against Slavery, they have always existed there Pope asks

Where's the North? At York, in the Tweed, In Portland, at the Orendec, and there, At Greenland, Zembla, or the Lord knows where!

A country united in just sentiment, strong in opinion and action against the further extension of slavery—! There has ever been such a North—if there ever existed any where, it has existed, the Lord knows where, I do not Why, in the very questions of the admission of Texas the North left in Texas The Whigs, North and South rejected Texas Ten Senators from slave-holding states, from the Whig party, resisted Texas Two only, as I remember, voted for it But the Southern Whig votes against Texas were overpowered by the Democratic votes from the Free States, and from New-England among the first Yes, if there had not been votes from New England in favor of Texas, Texas would have been out to this day Yes, if not from New England had been true, Texas would have been nothing but Texas still

There were four votes in the Senate from New England in favor of the admission of Texas—Mr Van Buren's friends—Democratic members one from Maine, two from New Hampshire, one from Connecticut One of them a gentleman who had held high office under Mr Van Buren They voted for Texas, and they left in Texas, against Southern Whigs and Northern Whigs That is the truth of it my friends

When northern members of Congress, voted in 1818, for the Missouri Compromise, against the known will of their constituents, they were called "Dough Faces" I am afraid, fellow citizens, that the generation of 'dough faces' will be as perpetual as the generation of men.

In 1844, as we all know, Mr Van Buren was a candidate for the Presidency, on the part of the Democratic party, but lost the nomination at Baltimore And we now learn from a letter from Gen Jackson to Mr Butler, that Mr. Van Buren's claims were superceded because after all, the South thought that the accomplishment of the annexation of Texas might be more safely intrusted to Southern hands We all know that the Nothern portion of the Democratic party were friendly to Mr Van Buren. Our neighbors from New Hampshire, and Maine, and elsewhere, were Van Buren men. But the moment it was ascertained that Mr Polk was the favorite of the South, and the favorite of the South upon the ground that I have mentioned—that a man more certain to bring about the annexation of Texas than Mr Van Buren—these friends of Mr Van Buren in the North all "caved in;" not a man of them stood, as Van Buren himself wrote a letter voting, and pronouncing to Mr Polk and Mr Dallas, and I could be found with the nominees

Now, gentlemen, if they were dough faces who voted for the Missouri compromise, what epithet shall describe those men, bred in our New England, who are so ready, not only to change or shed on him whom they most cordially united to support, and for the reason, to make more sure the annexation of Texas.

They nominated Mr Polk at the request of gentlemen of the South, and who went to vote for him, through thick and thin, till the work was accomplished

For my part, I think that dough faces is an epithet not sufficiently reproachful. Now, I think such persons are dough faces, and dough heads, and dough souls; [Shouts of laughter] that they are dough, that the central potter may mould them to vessels of honor or dishonor,—most ready by to vessels of dishonor

Now, what do we see? Repentance has gone far There are among them very people—these very gentlemen—persons who propose, with great zeal, the interest of the Free Soil party I hope their repentance is as sincere as it appears to be I hope it is a sincere conviction, and not merely a new chance for power, under a new name and a new party With all the pretensions, and all their patriotism, I see dough still sticking on some of their cheeks And therefore I have no confidence—not a particle I do not mean to say, that the great mass of the people, especially those who went to the Convention from this State, have not the highest and purest motives I think they act unwisely I acquit them of dishonest intentions And with respect to others, and those who have been part and parcel—those who have brought this every in to this Union—I distrust If they repent, let them, before we trust them, show a fit worthy of repentance

I have said, gentlemen, that in my opinion, if it were desirable to place Mr Van Buren at the head of Government, there is no chance for him Others are as good judges as I am But I am not able to say that I see any State in the Union of which there is a reasonable probability that he will get the vote There may be others more versed in their state affairs than I am But I see not, and therefore I think that the ground is reduced exactly between Gen. Cass and Gen Taylor

You may remember, that in the discussions of 1844, when Mr Berney was drawing off votes from Mr Clay, I said that every vote for Mr Berney was half a vote for Mr Polk I do not true that the Liberty vote, abstracted from Mr Clay's vote in the State of New York, made Mr Polk President? This is as clear as any historical fact And in my judgment it will be so now I consider every Whig vote given to Mr Van Buren, directly aiding the election of Mr Cass Mark, I say, Whig vote Now there may be States in which Van Buren may draw from the other side largely But I speak of Whig votes in those States and in many States And I am of opinion that any vote given to Mr Van Buren injures for Gen Cass.

Now as to Gen Cass, gentlemen We need not go to the Baltimore platform to instruct ourselves on this point. We know how he will conduct the Government Gen Cass will go in to the government as coming in by the same party that elected Mr Polk, and he will feel low in the footsteps of his illustrious predecessor [Laughter] I hold him, I confess, in the present state of the country, to be the most dangerous man to whom the powers of the executive chair of this sturdy country could well be placed He lives described himself not as conservative, not as protective in his sentiments, but as belonging to the party of Progress. He believes in the doctrine of American destiny, and that that destiny is to go through wars and invasions and armies of aggrandisement—to establish a great, powerful, domineering government over all this country We know that Gen Cass could have prevented the treaty with England in 1842 we did not have been made, we know that if Mr Cass could have prevented it, the settlement of the Oregon question would not have been accomplished in 1846

To be Continued

That was a beautiful idea of the wife of an Irish schoolmaster, who, while poor himself, had given gratuitous instruction to his poor scholars, but when he increased in worldly goods he began to think he could not give his services for no thing. "James, don't say the like of that," said the gentle hearted woman, "Can a poor scholar live? come into a house that I don't feel as if he brought fresh air from heaven with him I never miss the bite I give them, my heart warms at the enthusiastic sound of their bare feet on the floor, and the door almost opens of itself to let them in"

A young gentleman at a ball, in asking a beautiful young lady to lend against a young lady He begin to apologize "Not a word, sir, said she; "I do not hard enough to hurt anybody

MRS. E. KIDDER'S
DYSENTERY CORDIAL.
AND
Immediate & Perfect Cure
—FOR—
CHOLERA MORBUS, DYSENTERY, DIARRHŒA, SUMMER COMPLAINTS OF CHILDREN SEA SICKNESS, GENERAL DEBILITY, etc etc
WHERE the all powerful solvent is at hand, Cholera Dysentery and Bowel Diarrhœa are no longer to be feared or looked upon with terror as the Cordial will meet, instantly on the first attack in the course of a very few hours at least at the commencement
It has been before the public for more than six teen years, and was the first article made known to the public as an unquestionable and perfect remedy for these complaints It has been thoroughly tested in every country and every climate and in fact has every where proved the same—SPECIFIC CURE, even when the disease has actually set in the last stage The public may rest assured that it contains neither opium or any other injurious substance or any thing that is in the least injurious to the constitution
Cholera and Common Cholera Morbus
This Cordial immediately checks the vomiting relaxes the pores stops the Diarrhœa and restores the bowels to a perfect healthy state and however severe the attack may be or however low the patient may have become it invariably restores
Severest cases of Dysentery,
are in a short time counteracted, the pores are opened the bowels healed and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours
Chronic Diarrhœa.
either in children or adults of months or years standing, is a most speedily and effectually cured by this Cordial notwithstanding the great debility reduced state of the skeleton, immediately strengthens, and shortly restores them to perfect health
Cholera Infantum
It has saved the lives of many thousand children who were reduced to death's door by this complaint it gives the immediate relief, and they very soon recover
Sea Sickness.
It is a most pleasant and desirable remedy for Sea Sickness It checks the vomiting and sickness relaxes the pulse It invariably checks and stops the disease in most cases whatever
Children that are Teething,
and prone to Diarrhœa should always be provided with this medicine as it will be the means of preventing the Cholera Infantum It is also safe and pleasant to take, and children are fond of it and will take it without trouble or persuasion
For General Debility and Dyspepsia,
It is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from fermenting, or disturbing the stomach
CAUTION.
Beware of those impositions which are daily palmed off upon the public by using the name of my article which is CHOLERA MORBUS DYSENTERY AND DIARRHŒA CORDIAL which name in posters have been used Also there have been fraudulent advertisements and prefatory advertisements Doubtless they have done this for the purpose of palming off their worthless articles at the expense and reputation of this original and most popular and genuine article Beware of the public
Perhaps, that you obtain MRS E KIDDER'S Cholera Morbus Dysentery and Diarrhœa Cordial and you will get the only true and original article which has ever been held in the highest estimation by the public throughout the whole country
It is put up in bottles holding nearly a quart and sold for family use and sold at One Dollar a bottle

Certificate from Col. Lutz, Editor of the Columbia Democrat Pa.

OFFICE OF THE COLUMBIA DEMOCRAT
Bloomsburg Columbia Co. Pa
March 1 1848

Dr William Wright—Dear Sir—I am one of the many who derive no trouble or returns hardly ever thought of the benefits resulting from the use of your excellent Vegetable Pills. Last March when I commenced publishing my paper, I was unfitted by poor health to attend to the interests of my office. I then gave the Pills a trial, and after taking them for a few weeks I found myself in good health. I have since recommended them to every other person.

In every instance, when affected with sick headache, or when the system or bowels were encumbered with orbid humors, I found speedy relief from the use of your Pills. By taking them in time to stop a cold when it is spreading, I have always been restored to health, without loss of time and without the expense of a physician. Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually without disturbing the rest of the patient and may be given without producing even sickness at the stomach.

Respectfully, your friend, &c.
LEVI LATZ

[From the Delaware Express Delhi N Y]

WRIGHT'S INDIAN VEGETABLE PILLS—Although not particularly friendly to patent medicine we must confess that we have become a convert to these pills having had an opportunity on more than two occasions to test their efficacy. For a gentle mild yet sure cure we will be found amongst the first. When *their* or other medicines have not sufficient and more thorough medicine is required a dose of three or four of these pills taken morning and night will be found efficacious in clearing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in commending the pills to the public.

Look out for Counterfeits!

Some are coated with sugar others are made to resemble in outer appearance the original article. The safest course is to purchase from the agents only one or more of whom will be found in every town and county in the State.

The following agencies have been established for the sale of Wright's Indian Vegetable Pills in *Penobscot County*:—

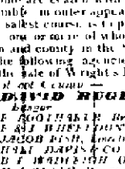
Important to Owners of Horses.

Dillon's Celebrated

LEAVE CURE!!!



This has been in daily use for a long time in the United States, and England for the last three years, during which time it has been the means of saving the lives of many valuable horses, which were given up to die by the most eminent veterinary surgeons of the country. Many of the most eminent veterinary surgeons have given it the preference to any other remedy. Its effects are so well known that it is considered unnecessary to publish certificates of its efficacy. Its sale has increased to 2,000 cases annually for the last three years, and in the last two years perhaps more than 10,000 cases have been sold in this country. More than 2,000 cases have been sold in Philadelphia alone, and 1,000 cases in Baltimore and Philadelphia.

This medicine is the most extraordinary remedy ever introduced in the United States. The following testimonial has been received in confidence on our possession, proving its superiority.

New Scotland, Albany Co N Y, February 17th, 1848

Messrs Fitch & Cassidy, Gentlemen—I herewith transmit to you a certificate, for the benefit of those who may be interested in your efficacious Leave Cure.

I purchased a valuable mare of my best horses in the month of March, 1847, which I followed to use between three and four months without giving her any further thought, relying in unparalleled popularity of Dillon's Leave Cure. I opened a drawer in which I gave it to him, and it entirely removed the disease. From that time to the present he has been in a perfectly sound condition.

JAMES M WILLIAMS

UNIVERSAL CONDITION MEDICINE,

Sworn testimony of an eminent Boston Farrier

Boston, January 9th 1848

Messrs Dodd & Grant, Gentlemen—At the request of your Agents here I send you my opinion of your celebrated Horse Cure, Ayer's *Universal Condition Medicine*, for all the purposes it is recommended for in all diseases of the lungs and affection of the bronchial tubes, pectoral and secretory glands and the lungs, and I speak in the general and all certain properties of this the best medicine extant, for cough, Fever, Surfeit, Cut or Founder, Dropsy of the Skin and Chest, Fever, Pleurisy, Jaundice, Hide Bound, Inflammation of the Kidneys and Bladder, Costiveness, Hide Bound, Pulmonary and which operate on the animal system in the same manner that Yellow Dock and Sarsaparilla operate upon the human system. I would add, results in one of the horse owning public, to the fact that nine tenths of the above Diseases are contracted through neglect during the Moulting Season or time of changing the hair, which takes place during the most inclement seasons in the whole year, at which time, if the horse is exposed and neglected, the pores of the skin close up and the circulation of the fluids cease. If left in that condition, Disease in some form must ensue. It is at this time that I consider your *Invaluable Powder* indispensable, as it operates upon the system and fluids of the skin and causes the hair to fall off in dust and makes way for the new and healthy parts of a fine and glossy appearance.

THOMAS JONES, Farrier
No. 10 Ash Street.

CAUTION.—The astonishing success of Dillon's Leave Cure for the last two years, in the U States, has induced many vile persons to imitate and counterfeit it, and even go so far as to caution the public against it, and endeavor thereby to palm off their nostrums as the only genuine article. We believe that "*Dillon's Healing Cream*" is the first article of the kind ever introduced into the United States, and we have by offer *the sum of one thousand dollars* to any person who will prove to the contrary. Consequently all other must be imitations.

Dr. Townsend's

(IMPROVED EXTRACT OF)

SARSAPARILLA

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract put up in Quart Bottles—it is six times cheaper than other and warranted superior to any solid extracts without boiling, purging, sickening, or debilitating the Patient.

The great history and superiority of this Sarsaparilla over all other medicines, while it eradicates diseases it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

after known it not only purifies the whole system and strengthens the person, but it *creates new, pure and healthy blood*, a power possessed by no other medicine of any kind in this line the great secret of its wonderful success. It has performed within the last five years, more than 100,000 cures of severe cases of old scurvy, at least 15,000 were considered incurable. It has saved the lives of more than 3 old children during the two past seasons.

10 000 CASES OF GENERAL DEBILITY AND WEAKNESS OF NERVOUS SYSTEM

Dr Townsend's Sarsaparilla invigorates the whole system perfectly. To those who have lost their vigor or energy by the effects of medicine or injudicious indulgence, or by the effect of excessive indulgence, left the passions and brought on a general physical prostration of the nervous system, loss of sleep, loss of ambition, hot sensations, premature decay and dullness bearing towards the grave, debility, consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL

As it renovates and invigorates the system, gives activity to the limbs, and vigor to the mind, it is a most extraordinary cordial.

CONSUMPTION CURED

Cleanse and Strengthen, Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Coughs, Coughs, Asthma, Spitting of Blood, Pain in the Side, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been and can be cured.

SPITTING BLOOD

New York, April 22, 1848

Dr Townsend—Dear Sir—I feel bound to inform you of the benefit I have received from your Sarsaparilla. I have for several years had a hard cough, it became worse and worse. At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced, and did not expect to live. I have only taken two bottles of your Sarsaparilla a short time, and there have a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for this result.

Your obedient servant,
WM RUSSELL, 65 Catherine st.

RHEUMATISM

Philadelphia, Sept 14, 1847

Dr Townsend—Dear Sir—I have suffered terribly for six years with the Rheumatism, considerable of the time I could not eat, sleep or walk. I tried the old remedies, but they only gave me temporary relief. I have now taken two bottles of your Sarsaparilla, and have four bottles of your Sarsaparilla in the house. I feel as much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,
JAMES CUMMINGS.

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Western Seneca County.

Fordham August 13, 1847

Dr Townsend—Dear Sir—I have a little girl, seven years of age, who has been several years afflicted with Fits, we tried almost everything for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did. For six months she was free from fits, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful. Yours truly,
JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy remedy for incipient Consumption, Barrenness, Leucorrhœa or Falling of the Womb, Costiveness, Piles, Gonorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge through the urine, and the general prostration of the system—no matter whether the result of inherent causes or causes, produced by irregularity, illness, or accident. Nothing can be more surprising than its immediate effects on the human system. Females who are in a languishing condition, from a weakness, or debilitated and full of nervous and hysterics, will find in this a powerful and speedy remedy. Many of the most eminent physicians of the day have given it the preference to all other medicines, and have prescribed it in their own families in preference to any other medicine, and have been blessed with the healthy offspring.

TO MOTHERS AND MARRIED LADIES

The extract of Sarsaparilla has been recently prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. *This period may be delayed for several years by using this medicine.* Nor is it less valuable for those who have age vanishing womanhood as it is a cordial to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural energies, by removing the impurities of the body, it does not stimulate so as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most efficacious medicine for purifying the system, and relieving the sufferings attending upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the flow—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant on childbirth—as Costiveness, Cramps, Swelling of the Feet, Delirium, Wandering, Hiccoughs, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and establishing the circulation it has no equal. The great beauty of this medicine is it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Enough in the opinion of the light first with this medicine, will always assure a safe and easy confinement.

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil the beauty. They close the pores of the skin, and clock the circulation, which, when united is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, penalties in own pronounced in the human face divine," as well as in the prevention of all diseases arising from stagnated flowing. A free, active and healthy circulation of the fluids or the cleansing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty, and which imparts the indescribable shades and flushes of loveliness that all admire but none can describe. This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, she paints and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and the skin pure and active, blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise and are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain character of step, buoyant spirits, sparkling eyes, and beautiful complexion, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied, are delighted. Ladies of every station extend our office daily.

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably put their stuff to great venality for *female &c, &c*, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicines have, since the great success of Dr. Townsend's Sarsaparilla, a complaint incident to females, recommended them, although previously they did not. A number of them if stores, Pills, &c, are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively shows that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. These persons are cured in one house in Dr Townsend's Sarsaparilla.

THREE CHEERS.

Dr Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very sore sly with it, but are now taken only four bottles, it is to know away, for which I feel most grateful. Yours respectfully,
ISAAC W CRAIN 196 Wooster st

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving testimony from physicians in different parts of the Union.

CALL ON.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making spurious imitations, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements—they are worthless imitations, and should be avoided.

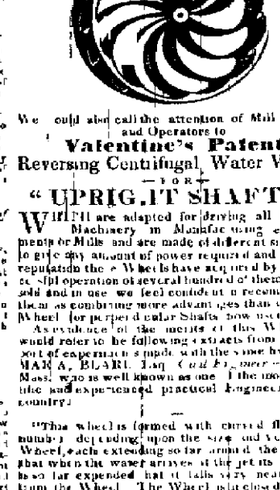
in use at the present time, and the unconfidently recommend them, with the same head and quantity of water applied, as possessing and combining *more Strength and Speed*, and giving a more *uniform* and *Steady Motion* in and out of the gate (and therefore not liable to break cranks) and will saw *run longer* and *saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but two Vents for the discharge of water which makes the aperture as large and allows the drift stuff to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere.



CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR *COLDS, COUGHS, ASTHMA and CONSUMPTION*

BUCHAN'S HUNGARIAN BALSAM the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most efficacious, and effectual cure for those formidable complaints, now known to the civilized world.

Thousands times of testimony in the United States, during which time it has been in use from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country as the great and only REMEDIABLE REMEDY in the worst cases of Pulmonary diseases, and the best and most agreeable curative of all the slight forms of cold, cough and inflammation that can possibly be used.

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

Dr. BRADLEY—Dear sir: The Hungarian Balsam is, beyond all question, a most perfect and unrivalled preparation for diseases of the lungs. I have used it in my family and in my professional practice for more than two years with the most influential and efficacious cases, cases of *severe Pulmonary disease*, and I can consequentially recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted. Yours respectfully,
FREDERIC STORER, M D

Boston, May 22, 1848.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

From the Christian Freeman

While we expedite quickness, we are always pleased to give credit to that which is truly useful, and to give information which may benefit others. A few years ago a brother of ours, from Norway, came into our office in comfortable health, whom we did not expect leaves again on Monday. We received a letter a few weeks since, from another brother, the president of a New York College, stating that he was confined to his bed and could not possibly continue in a short time. Judge then of our surprise when we saw him at our office. He has a slight cough remaining, and it would be natural that the hospitable reader should further time for acquiring strength of lungs. But he is in comfortable health. The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully will show was medicine has been the instrument of the good work.

Boston Feb 16 1847

Dr D P Bradley—Sir—I cannot refrain from saying a word to you in commendation of Buchan's Hungarian Balsam of Life. Have a plain statement of facts to relate to my case and if they are of any service to others, you are at liberty to use them. Some years ago I contracted a cough, which I could not get rid of, and which finally settled on my lungs, so that I was obliged to quit my work and was confined to the house and about four weeks in all. During the time I received the best medical advice, and I have faithfully followed the prescriptions of my physicians, but could find no relief, but grew worse, and for the last three weeks was confined to my bed. Two of my physicians gave me up as past recovery. But my fortune was to find a trial of the Hungarian Balsam and immediately commenced taking it. The grave me instant relief, and in a few days have broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation.

BE WISE TODAY

Delay in any case of Consumptive tendency, is the short ally Death, under all ordinary circumstances. The Hungarian Balsam is a gem, and will DO YOU A CURE FIVE. If you have any symptoms above describe, be advised in time.

Sold in large bottles at 50 cts, one dollar per bottle.

Patent Mill Wheels.

We could also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation the Wheels have acquired by the successful operation of several hundred of them already sold and in use we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by THYMAN A. BLAKE, Esq *Civil Engineer*—Lowell Mass, who is well known as one of the most scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel that when the water arrives at the gate its pressure has far expended but it falls very nearly vertical from the Wheel. The Wheel is inclosed in a cylindrical wooden case or flume in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has to descend previous to passing the Wheel which causes a vacuum in the column of water, and by this arrangement all the friction in the step and bearing of the Wheel is avoided and so much of the power saved which in the ordinary mode of operations is wholly lost.

"This Wheel is adapted to low as well as high heads of water and will in addition to back water, so common in practice, give as much or more at least as the back water. Not so with Turbine jets, tightly gauged for a high head, will not answer for a low one, and vice versa for as the head increases the width of the jets should be proportionably decreased, so that the water may not issue to waste, and to give its best effect to the Wheel.

"In point of power, the trials seem conclusively that this Wheel is an error to the best constructed Breast Wheel, and in the case of back water working with good effect in situations where the Breast Wheel would be worthless; is less liable to need repairs, easily accessible, when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop."

Simplicity of structure, durability of parts, convenience of application and excellence of power are the great points to which we invite attention for this Wheel.

THYMAN A. BLAKE, *Civil Engineer*.

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Bos on that he may be consulted as to all diseases incident, to the human frame, at his office,

No. 55 Union Street.

Dr D has been in extensive practice in all parts of the United States and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 30 years in practice. The diseases of females will receive the Dr's particular attention. He will sell all the diseases from an exam nation of the eye this is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and minute explanation on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering, is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumption, and Liver Complaints, all Pulmonary diseases; Scrofula, Rheumatism Fits, Dyspepsy all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, The dolorous Hernia, Abdominal Weakness, Tooth ache, Intemperance Stammering Dr D warrants a cure of any of the above diseases, if applied in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8
